Installation guide/User manual
Prostudy

For user who wants to use our app, simply go to our hosted website: https://wwu39.pythonanywhere.com/prostudy/.

For developer want to access our source code, follow the step below:
1. Install web2py
   Download web2py here:
   http://www.web2py.com/examples/static/web2py_src.zip
   Unzip it to any directory.
2. Here are 2 ways you can run our app in web2py:
   - Copy prostudy folder under code folder in our gihub repo, then go to web2py/application, paste it here.
   - Download the package file web2py.app.prostudy.w2p, which is also under the code folder in our git repo, then run web2py.py and install it in the admin page.
